Dear Bum:

I've got just about ten minutes within which to write this letter. Fortunately I have so often expressed my sentiments towards you on previous occasions, that a few words of love and good wishes will, I think, suffice.

Of course my best prayers are for the ^{early} realization of the one wish which I know to be uppermost in your mind. I can readily appreciate how impatient you are for the final setting of the happy day; let's hope that your happiness in your future life will be all the greater because of the vexatious postponement which you can put down as a trial of your goodness for your future grace. I am afraid that my pen is running away with me, as my brain is more or less in a ferment this afternoon, as a resultant of a luncheon to which I was invited this noon. I and three other Royal Arcanemites were the guests of our Orator, on whose committee we serve. I enjoyed myself very much but, after it was over, I felt more like having a good time than going back to work at the mill.

Were you able to get tickets for Chevalier? I shall
go to hear him Saturday, if I have to stand.

How did Aunt Johanna like her Silke? Has Thma
gotten to work on it yet?

Did you like the best of Hermes? You ought to, as
Dick approved of it. When I come home Saturday
you can display the offerings of your friends and
admirers.

Give my love to my Mamma and accept a
characteristic birth-day hug and reassurance of
my fondest wishes from your loving brother,
Schmidt.

July 17, 1905.

Dear Blum:

Now that you have sufficiently enjoyed the first ecstatic thrills engendered by being in the company of your beloved morning, noon and night without any let or hindrance from your stupid family, I flatter myself that a letter from me - not too long of course - will not be entirely unwelcome.

I suppose that the first thing you did after steaming away, was to rush to your cabin and cry yourself into the belief that you would not know what a happy minute was until you were once again in the arms of your Roachie. The next thing on the program was, I guess, a sumptuous supper, which just suited you and made you feel like your old self again, so that you didn't care if school never kept again and as for your Roachie - well, men were ~~to~~ born to work anyway, besides it would be good discipline for his future mental career, to sweat a bit while you are enjoying yourself; lastly you owed it to yourself and those ever-handy future generations - God, bless them - to gain a little worldly experience! Besides - but perhaps what's the ~~reason~~ use of saying more; the above ought to satisfy any reasonable person.

I hope that you managed to get along without any sea-sickness. You didn't have to hold any ones teeth this time; did you? Judging by the weather we have had, ~~you~~ I suppose that you enjoyed a smooth passage. I hope that these remarks do not recall any unpleasant moments.

We have had some real summer-weather since your departure; not any of your muggy oppressive weather when a man has to gasp to catch his breath, but real undiluted summer heat, somewhat trying around noon, yet very endurable if you keep quiet and at peace with yourself and the world, but always tempered by breezes which make the evenings and early mornings very pleasant. I have rather welcomed this normal temperature as it gives me a chance to go swimming at nights.

You mustn't expect such a favorable report from 111 St. as Mamma and the girls, especially the Serapier, complain bitterly but unreasonably of the heat.

I hope that the hot spell which the papers report has spread over the Continent, will have entirely dissipated by the time you begin your tour.

I won't attempt to chronicle the family news and gossip; I shall leave such duties to Mamma and the girls. But

see I say bye-bye, let me warn you not to weep too many weeps over your Kachie, as he is ~~growing~~ fat and lusty under his new regimen of independence. As to your stupid family - well that's your kind thoughtfulness during the past year or so, you have so thoroughly accustomed us to get along ~~without~~ your company that we don't miss you a bit; at least I don't. Therefore enjoy yourself just as much as you possibly can. Once in a while if you get a chance write to me, if you are too pushed for time. I shall be glad to read your letters to Mamma. Be sure to write every day to Dick, otherwise you know, by our engagement

I am very glad to hear that you are well and hope you will find the weather very pleasant. I am sure you will have a very successful tour.

Dear Sporn:

Your postal card from Oxford was received this morning. When you come back I shall remind you of your promise to give me the details.

You make no mention of having received my letter; I suppose you will receive it on the continent. A postal card once in a while is all I shall demand from you, but I do wish that you would try to write a letter to Mamma, if only once a week, as your Roachie is, as you well know, so very uncommunicative; besides you must remember how very sensitive dear Mitzie is and how very appreciative she always is of all loving attention. Since last writing to you, the weather has been delightful, so that working has lost many of its terrors. I hope that the hot spell which I reported in my previous letter, will be the last of the season.

To see Mamma and to give leave for Sarah Carter, Mass. Her country home is situated in the very heart of the Berkshires, within 10 miles of Mt. Greylock. Do you know where it is? Do mind your postmark, looking it up for me. It is in the N. W. part of Mass. very near the border line of Vermont and N. Y. The old "Inn" is the highest peak of the Berkshires.

(about 3200 I believe) the Summit must command a very
extensive view. Josey C. went with them
to Portland to join them during the last week of August. I am
naturally very anxious to learn what sort of accommodations
they have there. I hope that he has at least been able
and that if they could get up with Wright and Miller, I suppose
that they will be very satisfied.

The chosen selection in New Orleans is growing smaller. Sam resorts
are anything but hopeful. Luckily Sam is immune against the
disease as he has already had an attack. He does not think of going
to St. Louis for the present as his services along with those of
other ^{local} doctors are required in the prosecution of the new works
of Sanitation, viz. cleaning and disinfecting gutters, screening doors
against mosquitoes, etc., which the City authorities at this late
hour are vigorously pushing forward.

Up to date the fever has been confined among the Italian Settlers,
nevertheless the city is in a state of nervous anxiety and many
of the citizens are leaving for the North. Nathan Miller with his
wife and two children joined the exodus for N. Y. They arrived
Saturday afternoon, after a very trying trip. They spent the whole
day Sunday at the house. Their daughter Josephine is as pretty as
a picture. Blonde hair and black eyes with dark eye-lashes,
which are framed with lovely tawny and a contour delicate
enough moulded for an angel. I only hope that she will retain her
good looks. The boy is a sturdy little chap of 3 yrs, very wild and playful
since to his sex. Edith is a very pleasant woman, the prettiest of Louisiana and I hope
will marry her. Nathan will take his family to Griffin's Corner today or
is intended. Write us again shortly. Regards to Miss Maria. Happy days from
your loving brother Fred.

Dear Brew,

You can't expect a bud-
get of news from a place as
slow as this. You would be sick
of coming here but we I was never
an enthusiastic athlete. I was
not as little pleased here as
Phineas. At least I have a daily
letter to look forward to and one
to write. But I try to look at it
philosophically and put in a
little fat, as I weighed only ninety
pounds when we came and do not
want to start on my new life,
a scarecrow.

I don't know whether Murtz
has written you of the various con-
ditions in N. C. and how consan-
singly Sam is doing his work to
fight the fever. Each precinct in the
city was given over to one man to see
that all citizens were out & accounted
& Sam was in charge in his case & was
the first to finish the allotted territory.

Dear Mother:
C'est presque incroyable! I should like to
be an unfortunate citizen of Salamis. If he had
been a good Greek he would have known better and said
it's over the salt and for mine and the wash tubs. And
so your play days are almost over and your pleasure
will soon be nothing more than a happy memory of
joyous days. However you can console yourself with the thought
that you will for many a day have countless opportunities to
recall the many pleasurable sights and incidents of your trip,
as you must expect to be surrounded by innumerable questions
by your entire family, whom you will find, I fear, a mass of
interrogations.

When I was home yesterday I saw your postal card to Mamma,
written in the Tiergarten in Berlin. I was delighted to learn
that I was to get a letter all for myself, for I must confess that I
am greatly amused at your letters. Indeed, though you are
a bit woozy about some things, you do write very entertaining letters.
I am glad that you did not adopt Mrs. Baldecker for a model, as
somebody we know used to do. But despite my great pleasure
in receiving your letters, I wish that you had enclosed my suggestion

and written a letter to 'Mama' instead. A social woman
have done for me. However I'll forgive you.

Did the Continental papers print any news about the first situation
in N. C. ? Poor Lee is in a terrible way, early about the wedding
day, as, should she be married in a few months, or a year, or
planned, Sam would have to return to his post & duty
almost immediately after the ceremony and leave his
wido behind to till the soil on some time around 7 months
you see any sense in such a course? I am sure that if
one is early situated, I would prefer to wait until some
time as I would be sure for me to claim my wife and take her
with me. Are such your sentiments?

I was not a bit abashed at your criticism of the natives of Madras
and I told Dick that if I ever went abroad, I would, I think
not widely advertised places, within every tourist's path, from
the very fact that their constant subjection to foreign curiosity
would prevent the inhabitants from their natural picturesque
ness into an unnatural and studied imitation. When I
visit Durbies and isans of other lands, I don't want to see
them making low on stage attitudes or posing at every move they
make. But then I suppose, our English brethren have
much of the monkey in them, anyway. Am I right?

Did you meet Edward B. in Paris? He wrote to me that
he would communicate with you if you met. I am sure
he would be a very agreeable and cordial
person. I shall be glad to hear of interest in the U.S.

These some weeks in my mind, I shall have
to write by next of the month for the Boston and
the Boston Society I may go via the C. & N. York to Albany in
order to visit the Capital and I am sure about the
parade. How do you like the "New York" and I

that the Express would come home so that I can have a good

heavy, nevertheless I will not get out of bed
until I shall have a good sleep for the sake of my

Dear Ben:

I have been trying all afternoon to squeeze in a few moments in order to write to you and now I'm obliged to scribble off my message in a hurry in order to have my greetings on hand in time to-morrow morning. But even tho' I am cut short, for time where in to express myself at length, I know that you fully understand that I find, pray for the speedy fulfillment of your desires. I hope that the writing paper which I give you will serve as an incentive to send one of your characteristic notes to your absent brother now in a while, when those who have a greater claim on your time spare you a few idle minutes.

My pet Mr. F. has said nothing. His silence is less a measure of a refusal to my demands. I hope that I'll prove a poor prophet.

When I come home Saturday you must show me your birth day gifts which I trust were all to your liking. When you receive your birth day kisses and good-wishes to-morrow please imagine, if you can, that your the crowd of celebrants includes your loving brother Schmiekie

~~Dear Friend~~

Dear Benjamin

I want to thank
you for the note and es-
sure you that I am only
too glad to show my confi-
dence in you at all times
in such a frank and
manly manner. I regret that there
is nothing to console a
sensible man.

As to letting Mr. T see
my letters, you don't want

me to turn round at a
man who doesn't know me
He was out there and at the
time but both of them got
Car always or to be a
chord. I was not known
as I felt sure someone had
said something to him and
he wanted to show me that
I need not expect anything
I don't think he has the least
idea of marriage but if he
has I am not the woman.
Anyway I don't understand
him when he was two days

how he writes me again but
I suppose it is as I always
felt he is lonely and hard
and the funds after writing
an amusement at a rate
one has to feel sorry for
him he is so despondent
and perhaps not ill.

It amuses me that people
here ~~are~~ try to tease me.
Mr. Landauer came in a
day yesterday tried to be
very facetious. Eugene
is always asking me about
my kind. Mr. T. sent me

with husband and caused
looked for a second notion can
get funny I hope then will
'all forget it soon.

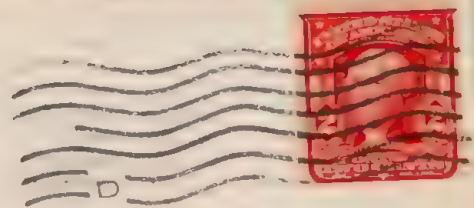

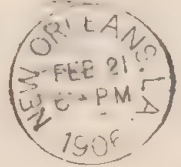

I know this is name and
then I would rather have
the best of it.

I am in a turn so on
the side of matrices I was
or glad it rest in your letter
that your best life is still
continuous hope it will keep
up.

With love to you and dearest
Mother Lillian and all the
others as always. Your and love

Dear Bern:

You are a daisy! I do not remember the exact title of the book, but believe it was "The History of the Declaration of Independence." (Any way that was the subject matter. It is one of the latest publications by Fadd, Mead & Co. You can identify the book by the mes. copies of the original drafts of the Declaration which the book was advertised to contain.

Has Aunt Marie decided when she is to leave. I wish that you would let me know sufficiently early to enable me to send a fare well telegram in time.

Do try to have my book by Saturday. I don't doubt that your accusation is founded on the facts, but any way I'll promise to do my best to remove in your eyes all cause for complaint.

Truly Fred.

Dear old Bummychen:

Paulie
whispered something through
her last, but we were not surprised
as you had written something in
your last, which that all knowing
& ever alert Lee interpreted correctly
and now Bummychen, through my wife
my raise merry & me, I want to
write to congratulate you & Dickie
dear, we have often wondered who
would report first, will you have
settled all doubt, & to you we offer our
love, & now Bummy can't you be generous
& send us the prescription. I trust how
happy you both are, & we join most
heartily with you in rejoicing. Hope
Dear Sister that your time will

pass easily and quickly. That dear
god he is already racking his head
as to pattern style etc, also the exact
garment that she is to make for IT.

We are quite well, & manage to pass
these days fairly comfortable under
a few things. The most disagreeable
thing is just now we are short of
water, as we have had only a little
showered since O's departure. You
know our supply was exhausted
this year. Well, I am figuring on
a filter, & if we can get one our
troubles will be over in that line.

How is your man, he is as lazy
as you, when it comes to writing.

We don't accomplish much reading,
just now we are trying McCauley -
How do you get along in that line?

Tonight we entertain David L & wife,
she knows, & will later go to the lake &

think. Tell O that Rae will spend
Sunday in W.V. & make Fidgee go to see them.

Lots of love sends love to one & all, but this
time I hope the most for yourself, affly your affection.

I hope you will meet Rae & Sol,
and sending Bessie's
present to her - it has
been much admired here &
I wish I could see her pleasure
when she opens it.

Tell Mamma my love
I wish I could see that he is the least
bit ugly.

Love, dear Bessie
Keep well & tell me just what
you would have me make
for you. Love my dear little
Bessie, you will be all at
home. With lots of love
from your sister Leah.

Dear Bessie,

Before you ever came
yesterday, I had begun to make
some very little things for you
because I just felt it. Well
Bessie, you know I don't
everything is good for you I am
to send you a red ribbon
little which he wishes now he
hadn't sent, but then I think
he a little bit envious. I
know dear Bessie will take good
care of you and I know she
she let you treat for yourself
these days? What a good
grandmother she will be.

I hope that you will be able to come
a nice cottage - the farmhouse
I know it was not so surprised
at A.P.'s engagement, as I know
and like you about his atten-
tions to her. This is a
friend of Florence's & I've
always heard what a
refined girl she is. I don't
know whether it ought to be
gratulated or not - he
hardly deserves it, but still
I can be magnanimous but
will be appreciative very soon
indeed? Don't forget someone
to send me Mrs. P.'s address &
tell me how little he gave
the great secret away.

Yesterday, Bertie & I spent
the day here, bringing her
sawing & in the evening
Dana came to dinner. That
such an enjoyable day - Dr.
Knox's Isabel Bauer & was
enthusiastic over her. The
latter, she says, is well up
on all subjects & besides, so
much, reminded me of you & Sam.
She is a well-built, strong looking
girl & always is bowled up
with indignation - in fact she
lay on her back with the hot
water bag - couldn't eat any, din-
ner, we played bridge until
quite late. This Friday Sam
& I will spend the day here.

Dear Eunice

Just want to write
 a few lines to let you know
 that we settled in our new
 place that it is the same with
 you and that Marnie's dark pro-
 phesy has not been fulfilled.
 Marnie's place is a nice

 a delightful view and the
 grounds are lovely in all

vegetables and so many made pies

are all coming. The work is a
real treasure and if possible

We are anxiously awaiting a letter

how much love one can feel

such a girl. I suppose I'm

her immensely, but she's
got a conceithead, I think.

Dear Minnie,

"I too, behind!"

Two letters from you in
one week when I had
seen in twice that many
months before! You don't
know what a pleasure it
is to me to get your letters
& to read how happy you
are now & in prospect.
I wish for my own part,
I too, could share your

anticipations - I sometimes
think I'll have to adopt
a child but that's nonsense
) I must content myself
a while sewing. For niece
& neveys, I made a corset,
Cover, a little beauty "if
I say it myself, who should it,
all embroidered, just like
the "idiot" I saw, as you would
say for Rose's birthday. But
Janho says it too much
work to give away & insists
that I keep it. I usually
do as I please, I want you
to know that it's rather
convenient to obey him.

in this instance. And as long
as I promised her to make
something for the kids,
I'll make such an embroidery
dress for Rose's birthday as
killing two birds with one
stone. Don't think that that
helps making Rose anything
because she stays with me,
I'd care to be to me more
than I can say. tho' I still
know her faults. She has
some mighty good points
Especially when one gets used
to it's as for instance,
Mabel C - who is "Innocent."

I can't complain:

If you don't answer
my questions, this is

Keep well, Bessie

Answer every question, do
you hear? And Bessie, who
I don't see will see where
it's going to be there. I don't
need to see the letter, I'll

Dear Stella and dear Dickie,

It has taken me all this time to come to, but I am still half dead! I have dwelt at length upon every detail of this varied trip in my letters to Albert, Jonas + [unclear], that I fear I shall hardly be able to do justice a fourth time to it. Therefore, if it should interest you, refer you to the very valuable manuscript in Jonas' possession.

I enjoyed receiving a letter from you dear Stella. I can't say that I enjoyed its contents as it sounded a trifle more-begone, but I appreciate the trouble you had gone to as I had just begun to scent an "in-law" feeling!

This is a beautiful spot; the lake surrounds me
at some of the best lakes and the view is

to the day, looks like stage scenery.
There are a lot of 'impassioned' persons
here who act as if they were the figures
in Panamakers show cases, only that their noses
are so different! — The hotel is very large
and advantageously built. We have splendid
rooms and everything is scrupulously clean.

If in years past I have had dyspepsia from
poor eating, I fear I shall get it this year
from (too much) good eating.

The length of the trip and its attendant dis-
comfort + fatigue dear Dick must have driven
all fears from my mind; my children
go swimming and rowing without causing
me any fears.

Have you any books that you are willing to part
with? If so I would be very glad to get them.

Give my love to Miss Stein and the Goldstones.

Many kisses to you both
from

Your loving
Mamma.

Dear Emma

Well I arrived home
safely but rather warm
but after a rest very happy
day. Thanks to you and everyone

I found Rusby Jr. looking
pleasent but still a little pale
and his ear nearly well again
and he seems to suffer when
he has it syringed. But I
don't think in looking

well she has given him
she has not been able to find
a suitable summer place
and now she wants to join
us anyway but I must not
not know where to place
her and any how the servants
complain of the work as it
is the work coming and
not coming has been a matter
from the beginning I'll do
clear of the whole thing.

you intended writing her in
a few days. And asked her
about Dr. Stein and she said
that he was connected with
Dr. Absenheim of the trunk
case place and that the
papers had been destroyed from
all the medical societies and
was held in some light esteem
by the rest of the profession
and that it was decided.

not to the credit of any physician

Tell Mr. W. was her informant
to you. You know the whole
"disgraceful" thing.

Oh. I hope I don't look im-
mediately for that in the
"list" to Richmond as Maria
says you never sent it out

you had evidence it but
never did I hope you will
find it maybe! Mrs. C. still
has it.

I got me tickets redeemed
alright after being cleared
from me office to the next or
last landed where I began
and got the money at the
regular ticket-office.

I found the city warm
but then the next time I
was there was nothing in and
out of cars but then it was
very pleasant sitting out on
the porch last evening and
this morning was delightful
the whole household with
Kathie in the go-cart ~~with~~

up the road into a long walk
and camped by a brook where
the children had their refresh-
ments we came home later
than the tourist with Amos.
I enjoyed the fall the most
and the Hawks were wise.

myself. Truly

Dear Ben-myah:

As to letters, I
fate have I not become a very
prolific letter writer? but this
time Ben, I trust you will enjoy
hearing from me, not because it
is from me, not from the beauty
of composition, not - ~~personality~~,
no but for the news I'll tell

Well it is no more nor less than
this, I have decided, or better have
nearly so, to let Lee go East for
a few weeks, & which she will

about Tuesday, go to Natchez, & leave
there Wednesday for Memphis with
Father & Sister, who go to Europe again
for a change. Miss Collier, our house keeper,
will come to me, to look after things.

As soon as father told me of his plans,
I hastily told him to take her along,

before we know it, it was all decided.

He was down to see me for a few
hours yesterday, left last afternoon
again. She should arrive in N.Y. on the

10th, & says she will go straight to
Ridgewood, but returns to N.Y. on the 11th

& bid Father & sister, "God Speed". She
will probably go to Louis for the day, &

return to Ridgewood that afternoon
with the logs. We enjoyed your letter

Dear Susan,

I appreciated your
sweet letter very much,
coming at a time when I most
needed a sympathetic soul.
I am glad your mama is well
- her way to recovery and
- a few days I shall
- back to the frontiers again.
Spent from Saturday afternoon
- on till Monday afternoon
with them, making it all
the harder for me to
- back to New York. Mama's
illness was quite a shock to me.
We had expected her at Ridge-
wood, and just when I thought
she would come she came
home to tell me she was
- making well. This was several
- days Thursday. Friday morning
I came in - knowing nothing

of the nature of her illness, and
found Isabel Lily, her mother
& Mrs Baron assembled here.
~~Salvatore~~ Mamma was very
hysterical when she first
saw me and all this put
together with her looks
was an awful shock for
me. When the doctor came
the first time Mamma was
alone, and he told her right
+ that it was no small
matter which proved quite
a shock although she had
always had some notion
of her trouble. She phoned
for Mrs. Eppenheimer, who
stayed with her over night
& until I got there. Fearing
that the doctor had more
to tell than Mamma could
I went up without Mamma
recalled that afternoon
he insisted on a train
ride as she remained the
night - watching. The
doctor's visit left

Sunday by which time mama
will be quite her former
self again. I will go home
either to-morrow or Thursday,
and come in for the day,
once or twice a week. While
mama was sick and I
was without a nurse mama
and I took care & walked
up despite our combined
situation. She said she
was too ill to work. I was
left alone for two days and
did things put together I
wonder how I got through
it. It only requires a good
strong list to show what
we can really do.
Of course at present there
can be no thought of going
to Portchester much as we
would like it. Any time
I can spare I will spend
with mama. You can imagine
how I feel about leaving

has so much alone, but I
simply cannot help it
It is more than likely that
and Lily will live here
for the winter, as mama does
I want the burden of the
place alone ^{as I should}
be left alone too much.
I am scrawling this off
while attending to all sorts
of little things during the
week's absence. I could not
find any other paper but
a stub - see what you think
I am not. This has a long
point & I might as well
try to write with a pen
I hope this lovely hot spell
not affecting you and
that all the other members
of your little family, big &
little are well. Give them
my love my very kindest
wishes & kisses for me,
also a special beauty
I am, & truly your sister
Rose.

Dear Beem:

Since we have been in Ridgewood I have become so dependant upon Mamma to keep our missing brethren informed as to our doings, that I have gotten out of the habit of writing. I dare say that this will appear to you as a flimsy excuse for not having written a single time to Fortchester, yet you must remember that the first month of our separation was broken up by an interchange of visits so that it is not so long ago since ~~we~~ we last saw each other.

I need not ask you how you are feeling or how well you are enjoying yourself. I wish that I could report as favorably from Ridgewood. Physically we are all in first class condition but unfortunately at times peace and harmony are conspicuously in their absence. I don't intend to do any tattling but I have made up my mind not to allow Mamma to undertake a similar job next summer. Enough of a rather painful subject.

Sunday morning I am to meet Lou at City Hall. Meet in front of the City Hall at 10:30 as we intend

to visit our father's grave and pay our respects to
his birthday in this sad way, instead of with our
past qualifications and good wishes. We are your
care to your son? Let me know in time, so that
I'll be sure to visit for you. Don't take the trip
unless you are feeling quite well, for in this
warm weather the journey to New York might
prove too trying for you.

Please ask that he send me a copy of my letter to
him both for the Staten Island attorney and my
visit to Philadelphia. It would much like to request
my visit but I am afraid that Mrs. D's bill
will be too high. Have you made your arrangements
for the day and the usual manoeuvres? I think
that you had better engage your boat very
early in the week, I imagine, for you'll be
demanded on that day.

Mamma said you were better describing how
your had been ill about with her for a few days? I am
afraid that in spite of the beautiful agreeable weather,
the heat has proved too much for her. She is better
and that she sadly needs a whiff of our more bracing air.
Therefore you had better gain the most of our air by going
to see her wife for a month or so.

With best regards to all I am your fond father
Dad.

Give my love to Dick.

Dear Mum

The last news bag this morning contained
of papers for me, and contained not only your very
interesting letter but also one from Leah. An
address has arrived in New York to answer. What
do you think of that? Where on earth what to answer
she can not say. Presumably, that something with her letters
and she who are looked to call to tomorrow in the leaf
McGowan. Possibly Dick might be able to get some in-
formation as to the arrival of transmission of it. If
he please, ask him to telephone to me, the results of his
inquiry as he much like to speak just at the station.
Don't know whether Manning is a true any thing about
what's coming, the the last says nothing about a business
they've not let out the news.

I'm sure you will be invited to an address about
the first of your coming to Independence. You are sure to
your coming out Saturday. That'll be a day of rest. I'm very
interested in you, and I'm sure you will be very
wonderful if it has to be kept out in the town with business.
When you are there let you know what you go to school.

Dear Burnstein,

I feel a little
ashamed that I haven't
written to you this week but
you know how it is here
sitting & chattering every day.
In fact I write to your folks
every morning in the
morning, just in time to
catch the mail. The wife
but all is well. I
have been a little
case of nerves - I
wrote to her to stop showing
him. I embroidered a
waist for Rose which all
don't very pretty. The

children are lovely but they
take all ones time, that is
if you're willing to give
up yourself.

I intended
to write to you on Monday
to tell you how disappointed
I was with myself for
speaking so bluntly to you
& only hope by now that
you have forgotten all
about it.

You know how exciting
our life is here & how there
is little to see. This is our
casualty, so I'm too
this Sunday & I'm too
little to go alone. So I
hope I won't see you

until the third. Unless
I want me to come up
during the week.

Are you sewing
on the little things yet?

Dear Ben:

Enclosed please find receipted bill for Mrs. G's ribbons, as I paid for the same. I would feel best if you would send me a check at her earliest convenience. With this bit of what talk let us turn to pleasant subjects. I should very much like to come over to Westchester. Labor Day is over to see the naval review at Cyster Bay. I have had a number of letters attached to my coming. I the first ^{place} must have to remember me in the knowledge of London, New York, & Albany? Do that intend to go to Long Beach? My mind runs it like the idea of sleeping in the railroad car without a protecting man, that it be a sleeping and leaving it, but I propose to come soon on Monday morning. If you don't leave I too early to be able to make their connection. Have here in a bit the question for you to answer.

1. Will there be any room for me in the car?

2. " " " " " Edward B. " " in case he should

you -!

3. What time do you intend to leave Westchester?

4. What train shall I take from N.Y.?

5 What will the Council cost per head, as I'd like to test
I have with me, if my pocket book can stand it.
Expense of your massive bridge questions properly. All these
are in it.

There is no more to report from Ridgewood. Had still some
of that bad feeling and was especially busy. Her name is
not in fact with and pronounced the good feelings not
really from the home but from our back with
most sense of feeling. But I suppose she happened when
she was young. I will not make any imputation except
Christmas had a shock of illness, but a single day
that by a Ridgewood etc. would wonder, for
the color is to lose from again. Yesterday I had to
know's birthday by eating a good part of a birthday
present table delicacy and good radishes from the
; no mind guessing. If they're any left, I'll bring
it in the 31. Poor Jewish. Still worries herself then
in the changes. Her singleness is doubtless a blessing in dis-
vise, as we would have doubtless witnessed her demise long
re this, if she had ever had children of her own.
Love to Dick

Was until last night when
I got the very beautiful

Especially to my dear brother.
He learned early this morning
that at three o'clock the
chimney at Helene's, was
thrown down, & by its weight
caused the roof to fall in.
A big rafter fell at the
foot of Helene's ^{bed} & it was
indeed a narrow escape
from death. The whole

distant home, and the
house can be repaired, as
the rain is pouring in. I

Your dear letter came

Dear Pemmie,

I don't suppose you
are doing very much at present.
I will send you a letter to write
a row a little of the time. I am
seeing all through now. I am still
busy making better slight little
things. I am anxious to see you
all and it won't be so long now.
I think I will go to Bath on

beautiful hand and arm she is
other plums for a girl of her
years. As Edith she thinks she
will be fat. She Edith made such
a good impression on me, her
things not finding her talking
in refinement etc. found her
minus that what constitutes a
real lady. I had heard she
was clever. Of course it isn't

awful if she doesn't come up

She isn't quite as light as yet but

she is somewhat self-possessed and a
little woman of the world.

Edie the younger couple will be

Laddie will be made of course in
June and the latter will return
the compliment and play wicket

Has Mrs. P. a better chance

Dear Burn:

Without any introductory flourishes, let me offer you my best wishes for to-morrow. Of course I know that at present all your thoughts and hopes center on the little stranger who will so shortly take his place in our family circle. You will please notice that I have written "his place", but boy or girl, I trust that your first-born will exceed your noblest expectations and to live to bring you and your Cookie much joy and much honor.

When I come home Saturday, you must show ~~you~~ me your birth-day gifts, which, I am sure, will be numerous and pretty.

Will you pardon me if I blasp home this occasion by asking you to remind Miss Stern to get my "Thirty Years War"? I should like to have it await my arrival home.

How do you enjoy this freezing weather? Doubtless for the present, you finish your meals with comfort and are not forced to curtail your prandial delights because of the excessive heat of the dining room. I hope that the

Cold wave will hold out through your birth day so
that you can eat your birth-day dinner with proper gusto.
Did you receive the extra piece of 1 inch ribbon which
you ordered? I received a bill advising me of its
delivery.

Once more wishing you many happy returns, with
an increasing share in this world's joys and prosperity,
I am,

Your fond brother,
Fred.

God-bless, may it prove
of good omen!

I had a few lines of thanks

Dear Stella and dear Dick,

I wish you
both joy to this most happy event,
and hope it may ever prove a
source of happiness!

I should like so much to see your
little girlie, and can imagine how
you both and the grandmothers dote
on her. And such a little being is
really the most beautiful and most tender
part of nature. - Am glad to hear
you are doing so well, Stella, and hope
everything will continue to your satisfaction.
Lots of love from Rae.

Always sends love and
kisses to Dick.

Dear Stella dear Dick,

I wish you both much happi-
ness on the birth of your little
daughter. May she grow up
healthily in body and mind,
and in disposition all you
wish. That you named her
after Miss Stein I find very
pleasant. She must be delight-
ed with this attention. I can
imagine her a fond grand-
mother, more the less so as
in her case it is a chosen
dequiter.

ever so much to see you

I think will keep you with

To hear your dear mother's
condition has improved
so much that Dick was
a great relief to me having
been informed a few days

weakness.

I hope she will be able to
be in Berlin at least the

sure to be here until about
the 5th July when our

know what connections
we shall see you when
you are here?

Dear Bess,

You see how I
appreciate your rare letters,
so this immediate answer ^{shows}

I am impatiently awaiting
little Cookie's photo, so please
don't strain my patience.

I am anxious to see the
resemblance that Gertrude
has noticed.

Yesterday I had a
very nice baby clothes maker

& included having two
handsome dresses ^{made} for little
Cookie, at your expense. Of
course they would be

fancy sketching after the
woman had left. But I have
bought the dresses for Mrs.
Repin, (about two hours
after your letter came, as
her name promised in it) &
found them so cheap, that
I do not see the phone
the woman - not so common.
The 1.50 dresses are reduced
to 1.15 & a pretty embroidered
yoke, with little flowers, for 2.00
However, I think the little
dresses sewed at home, are
better made. So if you want
me to have this girl for you,
let me know, soon, before
it gets too hot to see. She

comes from the St Elizabeths City Centre
where the "swells" have nice little
made.

Tell Dennis that last night
the whole kit + kaboodle was

who goes to her sisters wedding.
Clement Gummy was there + she,
Dolly + I had a pitched battle
with the Tony class, because

I made the remark that
"you were disqualified social-

gate hauled at me, if it had
not been insulting, would
have been really laughable.

dollar a day & compare.

Dear Beorn:

Don't expect much of a letter. I only want to tell you how very glad I am to know that Helen is now more gaining weight. But then what else could you expect from the benign influences under which she now daily lives. By the time I see you again I trust that my niece will be a neat bundle.

Since your departure Christmas has become a reformed day, whether because he has profited by his past little experience or because he realizes that his protector is too far away to raise a battle and come to his assistance when he's getting the cause of a scrap, I know not, but he confines his wandering to the immediate vicinity of the house, within which precincts he doubtless learns himself safe from attack.

Doubtless you have learned of my god son's visit. He is a dear little fellow, but, alas, still an infant and sans a nurse, despite his sex, a nuisance. Had he the proper attention, we would have been only too glad to have him with us all summer, as he greatly enjoyed remaining around the lawn and walks. However as Louisa promised to stand a week with us later on, I am looking forward to her visit.

company or we may see us go back to N. Y.
My garden is growing apace. The peas are so heavily
laden with pods that I have to prop them up. I expect
to spend a mess this Saturday. The beans are likewise
covered with blossoms and pods and give promise
of many a meal. The other vegetables are equally
flourishing so that the outlook for a good crop is most
promising. Indeed you would not recognize my
garden, so quickly has it grown since your departure.
Joe Widy and Stessok, who are now your guests, will
furnish you with the latest gossip. La. Cole & Widy
to have home as her promised surprise awaits her.
I am glad that you find yourself so comfortably housed
and are so very well satisfied. The Emma more,
satisfied with her summer home or does she put up
her nose at Port. I don't know. I know her ~~house~~
has she ever truly said anything funny of late?
Why do you keep us with anxious ears about your most
wonderful wonderful news? And it eludes us quickly
is possible. Is any one engaged? Has the baby a
cough? Or have you lost your appetite?
Give my regards to your inamorata and the Pipers
and believe me to be your affectionate brother

Dear Helen:

I'm not in a particularly good
humor for writing, as we've but recently
come back from a long drive. You know
what that means: Christmas shopping and
I'm sitting under the wheels, the dear woman
all screaming and getting induly ex-
cited, then fidgeting at every approaching
automobile, with every body looking at
us and me losing my temper.
However as yesterday was Helene's birth-
day - at least so her dotting aunts have
advised me - I don't want to let the day
pass without sending her my best wishes,
through you, for a very happy and useful
life. I'm sure that her civil accumulation
of a bit of fat, is, I suppose, in order and
very pertinent. Has she gained any? But
let me tell you right here that if she
were my grandmother, I'd throw the party
scales into the street and as long as she
looked well and was ready at her numerous

teeth - he'll tell you so himself - and is
as chubby as ever. His teething has taken a
bit of cold out of his cheeks, but
without doubt the cool weather of the
fall will bring the roses back in their full
bloom.

Dear Burn:

Have you heard that I have decided to spend my vacation at Kennebunkport, with Theodore and the others? In consequence, I shall have to cancel my engagement, to spend a couple of days with you, in Port Chester. Some other summer, I shall try to spend a few days with you.

Mr Charles J. and his Cordelia arrived yesterday. For the first time, I realized that our sister is no longer a young girl, when I appreciated the age of her suitor. The fact somewhat depressed me, as much of the impulsive joy of a youthful courtship, must be absent in their wedding. Moreover the knowledge, that he is not in a position to make our sister happy, for some time to come, contributed towards dispiriting me.

The poor man, seemed to be ill at ease and rather nervous, among us, as if he weren't quite sure of his position. I do not see why he and Phina do not declare their engagement, even if they do have to wait a year or so, for their final marriage.

Put enough of a painful subject. Let us rather talk

of your youngster. I was glad to learn from Heisch
that she had, at the last weighing-in, gained 4 ounces
I hope that she'll continue to improve in a geometrical
ratio, so that when I next see her, she'll be fat as
she is fair.

Of course, I shall drop you a line or so from K -
I'll then with best regards to all, I am your
affectionate brother,

Schnitzle.

Mama

Dear Stella

I've been wanting to write to
you ever since I'm up here, but I've
been having such a dandy time of late
that I didn't have time for letter
writing.

The last few days have been

somewhat quiet, but this afternoon
two of the boys from the city are
coming to spend the week here
with us, so I know if I didn't
write now, I never would.

How is the baby getting along?
Has she gained much since
I last saw her?

It would take too long for me
to tell you about our good times,
but you can imagine how grand
it was — twelve fellows for
five girls.

With lots of love & many kisses to
you and Miss Stein, I remain

Yours fondly,
Amy

Dear Stella,
I'm I'm in debt
on us? I really can't remember,
and therefore, I may safely boast
of my magnanimity.

Well, if the child are satisfied to go,
we will leave here next Friday.
They have had such fun, and today
two of their friends are coming up,
and who, according to their letters,
intend giving the girls such a
dandy time, but I am afraid we
may have to postpone our departure.

until after Labor day.

Albert wrote to me that he may miss
for his heavy underwear, if so I may
have to return ahead of the others.

I dread going home, home without my
precious Marnie does not seem like
home —

How is your darling baby & Marnie here
in me. When will Dick be home?

Love for you and Miss Stevie

Dear Mother,

I am writing you this morning before breakfast and the
 lazy friends are about getting up before what
 you call my last hour, the first time I have
 slept until 7:30 and breakfast isn't served
 until 8. Therefore you will think me a
 bit when I say that I am generally the first
 one to rise. But being ever so lazy, agree
 with me beautifully, and I think that, with
 a matter so much of experience I could be
 as lazy as the next self-indulgent person.
 Have you been worrying any about my
 health? I have meant to tell you in my
 very first letter that upon the day of my
 departure, my indisposition suddenly left
 me and since then, except for a very short

April I have felt top top and been in fine
appetite.

It was good to learn that you will be under your
father's care in some time that our relations
will be much more cordial, if all matters of
infantile anxiety are removed. I appreciate your
kindly feeling for Charles by the way. There
is too small for me as a Charles Stearn
rather too insignificant for him. I have
to give some nice name ^{as a substitute}
I don't doubt that ^{we} we are near in
mutual acquaintance. ^{He} He gave him with me
rather affectively. It is probably that it
see him again this summer, will you please
offer him my best wishes and congratula-
tion?

It is too bad that China and C. can't set,
upon a remote date for their marriage. But
let us be cheerful and patient is possible
in a time of release ^{the} ^{of} ^{our}
Sibyl's prophecy, the conditions of which have
all been so wonderfully fulfilled. So let

that it won't be more than a century, at the

Rose has been treating herself to one of her
usual vicious colds, hence the break in
her letters. Yesterday, however, she felt very
much better, as the fever had broken, and to-
day outside of ~~her~~ a red nose (and possibly
inside) she'll be, doubtless, very nearly herself
again. Of course she's been showered with at-
tentions by her well-meaning friends, in the
form of flowers, delicacies, medicine, visits
and advice. So you see she wants for nothing
to get her well. Besides Aunt Rachel is keep-
ing an eye on her.

I am glad that old Jupiter Pluvius has
at length awoken to his responsibilities
and kept my garden from degenerating into
a small desert during my absence. Up here
he has been very good and been tending to
business in a sober, methodical way, with-
out any fuss or feathers, during the nights,
when good folks are all abed.

I was, likewise, pleased to learn that Christ-
mas has proven to be so companionable and
trust that he has been curbing his occasional
scurly outbreaks. Don't hesitate to muzzle
and thrash him, should he prove at all unruly.
Tell Mirsch to keep count of the tomatoes very
accurately, as I expect to get an expert ac-
countant to examine her books, upon my return.
Walter sent us word that he had unwittingly
sent the photos of my athletic dog to R. - Please
keep them for me until my return.

Tell Max that he'll be green with envy when
he sees the splendid tan of your
Fotografie
